KASKO & OOKPIK

The Kasko and Ookpik are two very agile recreational kayaks ideally suited to exploring winding rivers, lakes, and coastlines. With a smaller coaming, the Kasko will appeal to smaller-sized paddlers and the Ookpik to those wishing for a wider fit. Both are equipped with thigh braces and a smaller rudder system for easy control.

Model	Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Beluga skirt size
Kasko Rudder	13'1" (4.00 m)	23.2" (59 cm)	30.5 x 15.7 " (77.5 x 40 cm)	57.2 lbs (26 kg)	90 to 200 lbs (41 to 91 kg)	276 lbs (125 kg)	100 gal us (375 L)	Reverse hard chine	Large
Ookpik Rudder	13' (3.95 m)	24" (61 cm)	31.5 x 17.5" (80 x 44.5 cm)	57.6 lbs (26.2 kg)	120 to 286 lbs (55 to 130 kg)	287 lbs (130 kg)	106 gal us (400 L)	Reverse hard chine	X-Large

The Sedna is one of our most versatile models. Its arched hull shape and waterline length have been designed to provide stability combined with very predictable behavior, as well as easy handling while requiring a minimum effort to maintain a good cruising speed. These characteristics are sure to appeal to the day or weekend paddler who loves to go exploring in all types of weather and water conditions without the storing inconvenience of a 17ft kayak. Comes standard with a rudder system.

Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine		Beluga skirt size
15' (4.57 m)	23.3" (59.1 cm)	17 x 32 " (43 x 81 cm)	60.7 lbs (27.6 kg)	120to 250 lbs (55to 113 kg)	325 lbs (118 kg)	103 gal us (390 L)	Soft	RUDDER	Large

MUKTUK

The Muktuk's low profle offers plenty of thigh support, making it ideal for small to medium-sized paddlers. Its shape generates minimal wind resistance, provides great storage and the kayak is highly responsive during turns. A tapered contour adds speed to a craft that is stable, comfortable, and easy to paddle.

Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Steering	
15'11" (4.85 m)	23.6" (60 cm)	16 x 31 " (42 x 79 cm)	62.8 lbs (28.55 kg)	90 to 190 lbs (41 to 86 kg)	275 lbs (102 kg)	103 gal us (390 L)	Soft	RUDDER	Medium

INUKSHUK HIGH DENSITY POLYETHYLENE

The Inukshuk, combining elegance and performance, is unquestionably the fastest kayak in its category. Its long waterline and tapered contour allow the kayak to accelerate quickly and track beautifully, while the upswept bow provides buoyancy when paddling in waves. A moderate rocker makes the kayak very agile while performing a lean turn, while a high back deck provides ample storage for extended touring. This comfortable and spacious kayak features a low profle offering minimal wind resistance, making the Inukshuk easy to control regardless of the skill of the paddler.

Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Steering	Beluga skirt size
17' (5.18 m)	23.2"	16 x 31 " (42 x 79 cm)	64.1 lbs (29.15 kg)	120to 300 lbs (55to 136 kg)	350 lbs (158 kg)	106 gal us (400 L)	Soft	RUDDER	Large

TANDEMS

PASSAGE THERMOFORMED ARC

We have developed the cockpits to accommodate paddlers of all sizes. The outstanding comfort of the Passage is excellent for an afternoon cruise or a multi-day trip.

The Passage is not only incredibly stable - ideal for fishing, photography and wildlife viewing - but with its long

waterline length, astounding volume, 'dry ride' and comfort, the Passage is a capable long-range cruiser yet remains a fun kayak for an afternoon paddle.

An excellent value at an affordable price! Rough Water Ready – Beginner Friendly!

ESPERANTO

The Esperanto is one of the fastest plastic tandems on the market. It is easy to paddle, comfortable, stable, and can reach impressive cruising speeds. A moderate rocker and a large rudder contribute to efficient turns. The practical center compartment can be used for extra storage or outfitted with our optional child seat/bulkhead. The cockpits are spaced sufficiently apart, allowing the paddlers to paddle at their own speed without risk of accidental collision between paddles. This makes the Esperanto ideally suited to a pair of paddlers with mixed abilities, families with young children, or a long expedition needing high volume of storage and displacement.

Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Optional	Steering	Beluga skirt size

BELUGA COMPOSITE

The Beluga is a composite tandem that ensures ease and confidence from the first strokes of your paddle. This kayak combines stability and performance and is capable of reaching high cruising speeds with minimal effort. A moderate rocker coupled with a larger rudder make the Beluga easy to turn. Large cockpits offer ample room for the legs and feet and are spaced sufficiently apart, allowing the paddlers to paddle at their own speed without risk of accidental collision between paddles. This makes the kayak ideally suited to a pair of paddlers with mixed abilities, families with young children, or a long expedition needing high volume of storage and displacement.

2018

The Pura 120 is the perfect recreational kayak for beginners and those looking for a stress-free paddle. Heavy on style but easy to handle, both on and off water, the Pura 120 is a joy to paddle. Stable, responsive and comfortable,

Designed to give kayakers comfort and stability with agile yet reassuring handling, the Halo 130 will make all your adventures memorable. Experienced paddlers and those looking to develop their skills will appreciate the Halo 130's potential. This is truly a light, fun kayak!

Fast, sleek, stable and seaworthy- the Compass 140 does it all. While not a full touring kayak, this craft gives you options. With enough storage capacity for an overnight trip, yet light enough to easily carry, this is a versatile recreational kayak. The Compass 140 will turn on a dime, handle rough water and more importantly, put a smile on your face.

STORM Series

THERMOFORMED ABS

ULTRALIGHT

If you can only buy one boat to do it all, this series has it for you! With fit and comfort maxed out, whether it's for day paddles or lengthy trips, we designed remarkable performance and stability to scale for each length: 15', 16', or 17'. From the 10 year old granddaughter to the 6' 6"guy with size 13 feet, we have a Storm that fits!

Model	Length	Width	Cockpit dims	Weight ABS / UL	Recommended paddler size	Recommended load limit	Steering System	Beluga skirt size
Storm 15	15' (4.57 m)	20.9" (53 cm)	30 x 15.5" (77 x 40 cm)	45/36.5 lbs (20.5/16.6 kg)	80 to 150 lbs (36.4 to 68.2 kg)	225 lbs (102kg)	Rudder or Skeg	Large
Storm 16	16' (4.87 m)	22.2" (56.5 cm)	32 x 16.75" (82 x 43 cm)	56.3/41.4 lbs (25.6/18.8 kg)	150 to 250 lbs (68.2 to 114 kg)	300 lbs (136 kg)	Rudder or Skeg	X-Large
Storm 17	17' (5.18 m)	24" (61 cm)	32 x 17" (82 x 44 cm)	59.9/44 lbs (27.2/20 kg)	150 to 325 lbs (68.2 to 147.7 kg)	350 lbs (158 kg)	Rudder or Skeg	X-Large

COSMA

BELUGA

The Cosma is an agile platform for experienced paddlers under 175 lbs, as it was designed for slender intermediate paddlers expanding their paddling skills in open water. The Cosma is a stable, quick and responsive kayak tailor-made for long expeditions where rough water conditions are to be expected. The Cosma's fine entry, moderate rocker, 23" beam and shallow "V" multi-chined hull make this a stable and seaworthy kayak for any paddler regardless of skill level. **Rough Water Ready – Beginner Friendly!**

Length	Width	Cockpit dims	Weight	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Steering	Beluga skirt size

									BELUGA

CHINOCK

THERMOFORMED ABS

ULTRALIGHT

The Chinook is a tour operator's dream. The efficient hull design will load up while carrying larger paddlers without wearing them out. The Chinook features a large cockpit, inherent stability, and a feeling of speed when paddling. The Chinook is not only incredibly stable - ideal for fishing, photography and wildlife viewing - but with its long waterline length, astounding volume, dry ride and agile performance, the Chinook is a capable long range cruiser yet a fun kayak for an afternoon paddle.

Length	Width	Cockpit dims	Weight ABS / UL	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Steering	Beluga skirt size

EPSILON Series

THERMOFORMED ABS ULTRALIGHT HIGH DENSITY COMPOSITE THREE SIZES POLYETHYLENE

The Epsilon is the best selling series for tour operators and rental fleets since such a wide variety of paddlers fit in this stable and predictable craft. A rudder, ample deck bungees, and a full compliment of deck safety line are placed strategically to maximize your storage. Boreal Design has invested in high-quality materials in all three constructions and our bulkhead installation is renowned as being the most reliable.

With our easily adjustable foot sliders, the Epsilon

accomodates a wide range of paddlers, be they tall or

short, and up to 300 lbs. The Epsilon is a smooth, predictable, and stable craft; even in rougher water the ride is quite dry. Load up for a couple weeks and enjoy the speed of the Epsilon. Simply a delightful kayak to paddle; count on its dependability!

This versatile series is available in three sizes - making it accessible to any sized paddler - and available in rotomolded plastic, thermoformed ABS or composite construction. See the table below for technical

specifications and paddler weight range of each size.

Model	Length	Width	Cockpit dims	Weight (Plastic) PE / ABS / UL	Weight (Composite) FG/KV/CA	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Beluga skirt size

BAFFIN Series

THERMOFORMED ABS ULTRALIGHT HIGH DENSITY COMPOSITE THREE SIZES POLYETHYLENE

The Baffin is built for the rigors of rough seas. Its unique hull design provides paddlers with a lively yet stable boat compared to other Greenland style kayaks. The three models in the series are well suited for a wide range of paddlers demanding immediate control and predictability. The generous-sized hatch openings allow paddlers to load up adequate amounts of gear for up to two weeks, and the day hatch keeps your essentials handy while on the water. The Baffin comes with a full compliment of deck rigging and a comfortably outfitted cockpit. This versatile series makes choosing a kayak a breeze with its three different sizes, available in rotomolded plastic, thermoformed ABS or composite construction. See the table below for technical specifications and the paddler weight range of each model.

Model	Length	Width	Cockpit dims	Weight (Plastic) PE / ABS / UL	Weight (Composite) FG/KV/CA	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Beluga skirt size

ALVIK & NARVAL COMPOSITE

BELUGA

BELUGA

The Alvik and the Narval are designed for the intermediate paddlers seeking performance, comfort and elegance. They are also excellent options for beginners who aspire to attain a higher skill level. A long waterline allows the paddler to achieve excellent acceleration and cruise speeds, while a moderate rocker enhances maneuverability when leaning. For long and short expeditions, loaded or not, the Alvik and Narval are always an outstanding choice.

Model	Length	Width	Cockpit dims	Weight (Composite) FG/KV/CA	Recommended paddler size	Recommended load limit	Total Volume	Type of Chine	Beluga skirt size
Alvik Rudder	17' (5.17 m)	22 _{3/4} " (58.0 cm)	16 x 31 " (41 x 79 cm)	51/46/42 lbs (23.1 / 20.9 /19.1 kg)	120to 225 lbs (55to 102 kg)	260 lbs (119 kg)	106 gal us (400 L)	Soft	Large
Narval Rudder	16' (4.88 m)	24 _{1/4} " (61.6 cm)	17 x 32 " (43 x 81 cm)	51/46/42 lbs (23.1 / 20.9 /19.1kg)	90 to 225 lbs (41 to 102 kg)	250 lbs (114 kg)	106 gal us (400 L)	Soft	Large

BELUGA

PAKESSO

COMPOSITE

The Pakesso is both compact and lightweight. The rudder will appeal to the novice paddler by allowing them to easily steer the kayak in adverse conditions, while the skeg version will delight intermediate paddlers looking for maneuverability and control in a small package. A more experienced paddler will appreciate the reverse hard chine combined with a semi-arched hull. Standard equipment includes a rudder or skeg system, a comfort seat, recessed hatches with quick-release thigh braces, recessed fittings, and deck lines.

BELU

ELLESMERE

With an outline mirroring the silhouette of traditional Greenland kayaks, the Ellesmere combines the advantages of the reverse hard chine with a semi-arched hull giving it great speed and maneuverability. Designed for the experienced paddler, standard equipment includes a skeg, sturdy anodized aluminum footrests, a backband seat, thigh braces, recessed fittings, and deck lines. The kayak also features a practical paddle rest in front of the cockpit. A day hatch is available as an option.

								•	BELUGA

LABRADOR COMPOSITE

The Labrador is a member of the reverse hard chine family, a line of performance-oriented kayaks for which Boreal Design is well known. It's designed for paddlers looking to combine speed and an exceptional tracking ability with sufficient storage for excursions lasting several days. The Labrador's long waterline and hull shape are optimized to reduce the impact of wave and water friction. The Labrador comes standard with our rudder system, compass recess, and day hatch.
